

Switchgear Bus Boots by MV POWER

MV POWER is an Engineering Services Company designed to be your Engineering “on demand” department. Over the years we became “One stop shop” for many Customers that do not have either “know-how” or manpower to maintain their switchgear.

MV POWER offers switchgear bus boots to insulate your Power Distribution asset. Bus boots are perfect removable insulation: great to work with, easy to install and remove, when needed, for inspections and testing. Above photos is the story for itself.

Please contact us for your switchgear bus boots needs.

Committed to servicing you,

Aleksandar Buntic, BSEE

Project Manager
