Cycloaliphatic Insulators by MV POWER

The A20 and A30 indoor cycloaliphatic insulators supplied by MV POWER provide years of reliable and consistent performance in the most rugged environments. Proven as nearly non-destructible, switchgear designers continue to specify it for their key projects. Table below contains information on our A20 and A30 cycloaliphatic insulators:

Model #:	NEMA Nom. Voltage (kV)	BIL (kV)	Height (inches)	Weight, each (lbs)	Box Pack. (pieces)
A20 Style (Max 4" OD)					
A20-1	4.8	60	3.5	2.35	18
A20-2	7.2	75	4.56	2.85	12
A20-3	13.2	95	6	3.65	9
A20-4	14.4	110	7.5	4.60	9
A20-5	34	150	10.5	6.35	9
A30 Style (Max 6" OD)					
A30-3	13.2	95	6	6.65	6
NOTES: - Applicable standard: ANSI C29.10-1989. - All cycloaliphatic standoffs are in ANSI 70 light grey color;					

Please contact us further for your indoor A20 and A30 cycloaliphatic standoffs need. Committed to servicing you,

Aleksandar Buntic, BSEE
Project Manager
