

Porcelain Station Post Insulators by MV POWER

The station post porcelain insulators supplied by MV POWER provide years of reliable and consistent performance in the most rugged environments. Proven as nearly non-destructible, switchgear designers continue to specify porcelain insulators for their key projects. Table below contains information on our station post porcelain insulators:

Model #:	NEMA Nom. Voltage (kV)	BIL (kV)	Height (inches)	Weight, each (lbs)	Box Pack. (pieces)
Standard Strength					
TR202	7.5	95	7.5	13	6
TR205	15	110	10	17	6
TR208	23	150	14	28	3
TR210	34.5	200	18	47	2
TR214	46	250	22	52	1
TR216	69	350	30	73	1
High Strength					
TR222	7.5	95	10	31	3
TR225	15	110	12	37	3
TR227	23	150	15	41	2
TR231	34.5	200	20	81	1
TR267	46	250	24	94	1
TR278	69	350	30	123	1

NOTES:

- Applicable standard: ANSI C29.9.
- All porcelain standoffs are glazed in ANSI 70 light grey color;

Please contact us further for your outdoor porcelain station post insulator need.

Committed to servicing you,

Aleksandar Buntic, BSEE Project Manager
